PERMIT INFORMATION
FOR THE APPLICANT
SIGNS ALONG HIGHWAY 21 & COUNTY ROAD 70

1. All signs must be on the south side of the road and south of the drainage ditch as near to the tree line as possible. This distance will approximate 75 to 100 feet from the centerline of the highway. The signs will be approximately the same distance from the highway as existing signs in that area.
2. Signs must not exceed fifty (50) square feet in area.
3. The maximum height is fifteen (15) feet from ground level to the top of the sign.
4. The distance between existing signs and new signs will be at least fifty (50) feet.
5. All signs must be properly anchored.
6. All signs must be of professional quality and properly maintained.
7. No illuminated or flashing signs will be permitted.
8. If the sign is to be located on land not owned by the City of Babbitt, or the applicant, a written permission statement signed by the landowner is required.
9. **A scale drawing must accompany this permit application that shows the proposed location of the sign including distance from the centerline of the highway, the distance from existing signs in the area, and a copy of the design or layout of the sign.**
