

CITY OF BABBITT
PUBLIC WORKS MEETING
August 31, 2011

The Public Works Meeting was called to order at 10:05 p.m.

Present were Rich Posey, Paul Hoheisel, and Glenn Anderson.

The quotes by Mesabi Bituminous on various tarring jobs in town were reviewed since they are doing the Evergreen project. After discussion, the committee decided to get a few more quotes as they felt the numbers were too high.

Posey informed the committee that Tim Blomberg would donate an updated used fuel pump to the City. Posey also informed the committee that he is in the process of getting a price for a new dump/plow and sanding truck.

The catch basin area behind Zup's Store was discussed and Posey said the Street Department will put some crushed rock there for now and that tar would be placed around the catch basin next summer.

The meeting was adjourned at 10:30 a.m.

Respectfully submitted,

Rich Posey, Street Supervisor
